

## "Intelligence Island" Post-Summit Report

Health-ISAC's "Intelligence Island" 2021 Fall Americas Summit was a success; over 95% of registered attendees participated in the Summit! A vast majority of attendees joined us in-person in San Diego, and several more participated from their home or office. Over 500 attendees came together to watch live and on-demand sessions, network with peers and gain insights into today's ever-changing environment.

The Summit opened with H-ISAC President & CEO, Denise Anderson, and Summit Emcee and Keynote, Katie Linendoll, as they welcomed attendees from over 38 different states and 9 different countries. Katie's keynote address recommended an integrated approach to cybersecurity. She was accompanied by an additional 63 speakers that shared their knowledge in over 37 hours of educational sessions.

The Summit Platform is open to all attendees until **January 31, 2022**, to watch or re-watch sessions and continue networking.
