Date Change for APAC SUMMIT
New dates are 23-25 June 2020

After careful consideration, the H-ISAC Inaugural APAC Summit dates have been changed.

Registration is open! Call for papers has re-opened.

H-ISAC is proud to introduce the Wednesday, May 13, 2020 Spring Summit Keynote Speaker:

Aaron C. Rouse—Special Agent in Charge, Federal Bureau of Investigation, Las Vegas Division.

On July 28, 2016, FBI Director James B. Comey named Aaron Rouse as the Special Agent in Charge of the Las Vegas Division. He oversaw the response and investigation of the shooting at Route 91 Harvest Music Festival in Las Vegas.

Mr. Rouse most recently served as Section Chief in the Counterintelligence Division at FBI Headquarters (FBI HQ). Mr. Rouse began his career with the FBI in September 1996, and was first assigned to the Washington Field Office (WFO) where he worked violent crime and was on both the Joint Fugitive Task Force and the Violent Crime/Reactive squads.

In October 2014, Mr. Rouse was appointed as the Section Chief for the Clandestine Operations Section in the Counterintelligence Division at FBI Headquarters. Prior to entering the FBI, Mr. Rouse was a state trooper in the New York State Police.
**H-ISAC PRODUCTS AND SERVICES ROADMAP UPDATE**

As a follow-up to the Products and Services roadmap introduced at the Fall Summit, H-ISAC staff has been working diligently and is proud to show transparency in the development of a comprehensive roadmap. At any point in time, members can check the current roadmap status on the P&S Roadmap page, located in the Member Portal.

Questions or ideas concerning new solutions for the membership are welcomed. [contact@h-isac.org](mailto:contact@h-isac.org)

**H-ISAC Shared Service**

**Successful Hobby Exercise**

H-ISAC held the inaugural “Hobby” Exercise last month on February 12, 2020, in Washington, DC. Attendees from the public and private sector participated in an exercise on cybersecurity challenges within the US Healthcare and Public Health (HPH) sector. The dialogue was robust and participants shared that the discussion was extremely beneficial.

The After Action Report and lessons learned will be shared with H-ISAC members and partners in the coming weeks.

DigitalStakeout Windows DNS Log Parser

Security intelligence tools help to provide visibility into an organization’s digital footprint, attack surface, and connectivity to the malicious digital footprint threatening its organization. Data from DNS queries and responses play a central role in this effort. To make this effort easier to collect and parse DNS response data from Windows DNS server environments, DigitalStakeout released *DigitalStakeout Windows DNS Log Parser Community Edition.*
