Ohana Village - Spring Americas Summit Happening Now!

The Health-ISAC community is connecting this week in Orlando, Florida - Sharing experiences, asking questions and strengthening the bond that makes us *Ohana*, family.

The Summit platform is LIVE! Log in to start conversations, win some game points, and customize your schedule. Allowing Summit notifications will give you an alert prior to sessions you don't want to miss. Anyone needing assistance with the platform, please email contact@h-isac.org.

Sessions are recorded and available for all registered attendees to watch on-demand through June 30th.

Health-ISAC helps protect the global health sector through botnet disruption

On April 6, 2022, Microsoft, Health-ISAC and FS-ISAC filed a civil suit in the US Federal Court in Atlanta against operators of the Zloader botnet.

Zloader is responsible for delivering Ryuk ransomware (among other malware) which has been linked to more than 200 ransomware attacks impacting hospitals, public health departments, nursing homes and patient care facilities around the world since 2018.

In many cases, the ransomware attacks knocked hospital IT systems off-line resulting in cancelled surgeries and delayed medical care.

The Court approved the request for a restraining order that allowed Microsoft to seize the botnet infrastructure, including hundreds of domains used by the criminal organization. The efforts showed an immediate impact with nearly 50,000 infected computers no longer able to take commands from the Zloader bot controllers. That number should continue to increase, and hopefully put an end to Zloader's ability to distribute malware forever.

Health-ISAC plans to continue botnet disruption projects like this in the future to help protect the global health sector. If you're interested in participating, please email contact@h-isac.org.

It Only Takes 9 minutes To Help Shape the Value You Receive From Your Health-ISAC Membership!

Health-ISAC is conducting its first annual Membership Satisfaction Survey. Your participation will help Health-ISAC as we strive to understand how well we are serving the needs of our members and the industry and how we can ensure ongoing value in the future. Individual responses are completely confidential.

Please take a few minutes to complete the Member Survey. The link can be found on the Member listserver dated 5-26-2022 and in the Spring Americas Summit app. Completed surveys may be entered to win a \$50 gift card. [NOTE: to be eligible for the gift certificate drawing we will need contact information]
