Collaborating for Resilience in Healthcare

Health-ISAC Monthly Newsletter - TLP White

March 2023

## Only 2 Weeks Until the Inaugural APAC Summit in Singapore!

21-23 March 2023 ---- You do not want to miss out on this event!

### Two exciting keynotes announced!

#### Wednesday Keynote

Leon Chang, is the Assistant Chief Executive and Chief Risk Officer for IS at Integrated Health Information Systems organization (IHIS). Mr. Chang is responsible for enterprise risk management, audit management, data protection, compliance, third party risk management. Come hear Mr. Chang's perspective on healthcare cybersecurity in APAC.

#### Thursday Keynote

Craig Jones, Director of Cybercrime, INTERPOL. Mr Jones is recognized as a strategic thinker, who shapes the policies that deliver outcomes and results against national, regional and global cyber threats. He will share his perspectives on the rapidly evolving global cybercrime threat landscape based upon his 29 years in law enforcement.

Besides a content rich agenda with topics such as risk management; security operations; security architecture; fraud; incident response; and medical device security, Health-ISAC has planned memorable dinner outings for attendees to experience together while creating important peer connections. Summit events include a Cocktail Reception, Touch Pool Experience and dinner at the Singapore Aquarium on Wednesday Night followed by Dinner and The Famous Night Safari Experience at the Singapore Zoo on Thursday Night.

The central location of this Inaugural event makes it accessible to healthcare and security professionals from Japan, India, Malaysia, and Australia, in addition to those in the Singapore area. Plan to stay at the contemporary and glamorous Hard Rock Hotel in Singapore to easily participate in evening networking and after hours discussions.

### Health-ISAC, in partnership with Booz Allen Hamilton, published its annual **Current and Emerging Healthcare Cyber Threat Landscape Report.**

The report covers the top threats to healthcare organizations from a Cyber Threat Intelligence (CTI) perspective. It offers projections for 2023 based on retrospective trend analysis of

threat actor Tactics, Techniques, and Procedures observed in 2022.

This report is available to Members and healthcare stakeholders currently receiving TLP: Green information from Health-ISAC.

The public version is available here: <https://h-isac.org/annual-threat-landscape-report-2/>

**PREPARE TO STRIKE**

**Announcing the keynote for the Spring Americas Summit**

Geoffrey Ling MD, PhD, Colonel, US Army (ret) and CEO of On Demand

Pharmaceuticals will speak in Tampa this May. You won't want to miss Dr. Ling's exciting and entertaining keynote where he will pull on his experience as the Founding Director of Biological Technologies at DARPA, his creation of the most advanced prosthetic arm to date, and his position as Assistant Director of Medical Innovation in the Science Division at President Obama's White House Office of Science, Technology and Policy to gaze into the future of healthcare and look at the threats the sector will face as technology rapidly unfolds.

**The Agenda is now available**

**Be sure to secure early bird pricing!**

<https://h-isac.org/summits/2023-spring-americas-summit/>

**Ensure you have a room on property**

Hotel Cutoff is April 17, 2023; however, Summit room blocks often sell out before deadline.

**Vulnerability Bulletins**

Health-ISAC Vulnerability Bulletins are distributed by the Threat Operations Center after analysis and validation of a vulnerability potentially impacting Member networks.

Vulnerability Bulletins are issued to alert organizations of cyber vulnerabilities and to help vulnerability management teams prioritize patch updates. These bulletins often contain mitigation steps that include security updates and/or mitigation steps/tools.

A recent **Member Satisfaction Survey** shows Members appreciate the succinct summaries with vulnerability analysis to free up time that can be directed to higher value tasks.

- Outstanding Value or Very Good Value = 83%
- Some Value, Very Little Value, or No Value = 11%
- Don't Know / Don't Use = 6%

Learn more about Community Services available to Members: <https://h-isac.org/community-services/>

**NEW SECURE CHAT**

Available March 6th!

**New Chat Collaboration Platform**

Health-ISAC will be moving off of Mattermost to a new Secure Chat Platform. This new platform will enhance collaboration capabilities between Members. Existing groups and channels will be migrated and the experience should be seamless. One thing to note is Chat histories will not be able to transfer, but the current platform will remain available for a period of time to allow you to save any relevant information. If you have any issues logging in please reach out to [contact@h-isac.org](mailto:contact@h-isac.org)

Access to the platform will be available Monday, March 6.

**COMMITTEE UPDATE**

**Business Resilience Committee**

Health-ISAC's Business Resilience Committee (BRC) identifies non-cybersecurity threats relevant to the health sector. It also determines associated risks and appropriate security considerations, and supports the Health-ISAC Threat Operations Center (TOC) to share information broadly with Members.

The BRC meets on the 2nd Wednesday of each month at 12:00 pm ET. Those interested in joining the BRC should send a short bio to [contact@h-isac.org](mailto:contact@h-isac.org).
